Pattern info:

When a series of stitches are repeated these are written within * - *. Behind is the number of times that series of stitches are repeated.

After each row a number is written within parentheses. This is the number of stitches you should have after each row is complete, not counting the beginning chainstitch.

In the end of the pattern you will find a number of pictures to help guide you. These pictures apply for both the smaller and bigger yarnbowl.

Hint! The looser you crochet the harder your bowl will felt in the washing machine.
